DETAILED ACTION

(1)

Allowable Subject Matter

Claims 53-60 have been found to be allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Methods for the thermal transfer decoration of three-dimensional objects, such as taught by U.S. patent Nos. 6,136,126 to Fenzi; 5,893,964 to Claveau; 5,641,372 to Okuno; and 4,314,814 to Deroode, are known in the art. Claveau, for example, discloses one such method comprising the steps of: Providing an envelope enclosing means; providing transfer (inker) sheets to each inside surface of the envelope; placing the article to be decorated in the envelope disposed between the transfer sheets; sucking air from an open end of said envelope by a sucking means thereby causing the transfer supports to intimately contact and enclose the article; heating the article and envelope means, including the transfer supports in a heating means to transfer a pattern carried on the transfer sheets to the article; and wherein the open end of the enveloping means is geometrically defined by the edge portions of the transfer supports. Although Deroode disclose that thermal transfer decoration of 3D articles may be accomplished through the use of an all-in-one elastic membrane having a thermally transferable decoration disposed directly on its surface, none of the prior art of record specifically teach or suggest modification of the Claveau reference whereby the three component envelope and transfer sheet assembly is replaced by a single piece wherein the material forming the envelope itself comprises a transfer support made from a gas tight thermoformable material having a transferable design carried on its interior surfaces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendments and Arguments

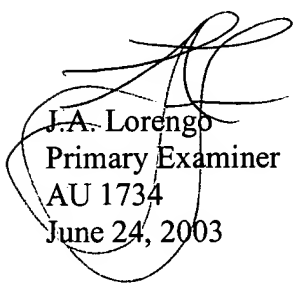

The amendments and arguments filed May 27, 2003 are acknowledged. In response to the cancellation of claims 22-29 and 35-52, the addition of new claims 53-60, and a reconsideration of the prior art as applied and of record (in view of the arguments set forth on pages 8-16 of the response), claims 53-60 have been found to be allowable over the prior art of record as set forth and explained in sections (1) and (2), above.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.
